Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicants thank the Examiner for the courtesy of a telephone interview on May 21, 2008. Applicants were represented at the interview by the undersigned. Technology Specialist, Zachary Thomas also participated in the call.

During the telephone interview, Applicants' representative initially provided an overview of some embodiments of the invention. The Tezuka reference was briefly discussed. The "DNA" metaphor and the term "network DNA components" were explained to the Examiner.

Applicants' representative agreed that claims 1-10, 12-21, and 40-44 should be amended to recite "computer-storage medium" rather than the presently recited "computer-readable medium."

Dated: June 11, 2008

Respectfully submitted,
